	Planned Activities	<p>The city will partner with the Chautauqua County Land Bank to present a pilot project called "Hands On Neighborhoods- Jamestown." Hands On Neighborhoods is an initiative by the Chautauqua County Land Bank (CCLBC) to foster community pride with a mission is to empower community members in building a sense of pride; leverage resources and work together towards strengthening their neighborhoods while building community, both on their block, and through-out the city. Hands On Neighborhoods-Jamestown is a collaboration between CCLBC and the City of Jamestown, in partnership with Jamestown Renaissance Corp., Zion Covenant Church, Jamestown Police and Fire Departments, Parks and Public Works Departments and the Board of Public Utilities. This year, we are focusing our efforts on the north side and the downtown business district of Jamestown. The goal is to build on the concept of Hands On Jamestown events of years past and create a program that can be replicated on a neighborhood scale across the city, and in communities throughout the county. We will be hosting 7 neighborhood cleanup events in Jamestown from April through October, engaging community members, civic organizations, church groups, affinity groups and businesses to work alongside, cleaning up the streets and learning about city and housing resources. Our goal is not only to host successful events, but to build a tool box for grassroots efforts to continue these initiatives, empowering residents to work together and leverage local resources to help make their community safer, more attractive, and to build relationships between residents, public sector leaders and local organizations</p>

Planned Activities	<p>Review and remediation of properties and or structures with environmental issues.</p> <p>One of the most important issues facing the city’s public transportation customers is knowing that the Jamestown Hub location will be in the same spot every day. By acquiring the property that the regional public transit service has been operating from since 2018, the Chautauqua Area Regional Transit Service (CARTS) will be able to control the Jamestown Hub location and make it the permanent home for many years to come. This location was originally selected because of its central location in the City of Jamestown, proximity to office locations that provide public services such as City Hall and other county social services, and availability of off-street bus parking. As part of this acquisition, the City of Jamestown will partner with CARTS to renovate the building and remediate the site as it was a gas station and will require some environmental cleanup including removal of old gas tanks, petroleum storage and any contaminated soil that might exist on site. CDBG funds will be utilized for this purpose.</p> <p>Redeveloping this site as a public transportation hub would reactivate a the vacated gas station as a centralized public space that would transform a property that was utilized in a manner that encourage its patrons to get gas and get of town. By repurposing the gas station as a CARTS hub, the City has the ability to flip the script and utilize the property to bring people into to town to shop, eat, and enjoy the many assets that Jamestown has to offer its residents and visitors. This site could be a vibrant bustling and unique place that provides a multitude of benefits to the community on a variety of levels.</p> <p>The redevelopment of the site will not only establish a permanent</p>

		<p>public transportation hub for CARTS, it will also offer an opportunity to establish a visitor welcome center that will provide a public restroom, tourist information and resources, and options for riders to grab a bite to eat or drink. The City will also partner with CARTS to develop a portion of the building as business incubator space for local entrepreneurs and early stage startups interested in opening a business such as a café, restaurant, or specialty retail shop, providing the physical space to jumpstart their businesses in a cost-effective way. This effort will be spearheaded by the City Department of Development with the goal of providing infrastructure that fosters and supports a culture of entrepreneurship within the local community by providing a space and the resources for small business owners to try and test their Annual Action Plan</p> <p>2022 46 OMB Control No: 2506-0117 (exp. 09/30/2021)</p> <p>businesses out while also providing services and offering products that benefit CARTS ridership as well as the surrounding community.</p>

	<p>Planned Activities</p>	<p>The city will partner with the Chautauqua County Land Bank to present a pilot project called "Hands On Neighborhoods- Jamestown." Hands On Neighborhoods is an initiative by the Chautauqua County Land Bank (CCLBC) to foster community pride with a mission is to empower community members in building a sense of pride; leverage resources and work together towards strengthening their neighborhoods while building community, both on their block, and through-out the city. Hands On Neighborhoods-Jamestown is a collaboration between CCLBC and the City of Jamestown, in partnership with Jamestown Renaissance Corp., Zion Covenant Church, Jamestown Police and Fire Departments, Parks and Public Works Departments and the Board of Public Utilities. This year, we are focusing our efforts on the north side and the downtown business district of Jamestown. The goal is to build on the concept of Hands On Jamestown events of years past and create a program that can be replicated on a neighborhood scale across the city, and in communities throughout the county. We will be hosting 7 neighborhood cleanup events in Jamestown from April through October, engaging community members, civic organizations, church groups, affinity groups and businesses to work alongside, cleaning up the streets and learning about city and housing resources. Our goal is not only to host successful events, but to build a tool box for grassroots efforts to continue these initiatives, empowering residents to work together and leverage local resources to help make their community safer, more attractive, and to build relationships between residents, public sector leaders and local organizations.</p>

Planned Activities	<p>Review and remediation of properties and or structures with environmental issues.</p> <p>One of the most important issues facing the city’s public transportation customers is knowing that the Jamestown Hub location will be in the same spot every day. By acquiring the property that the regional public transit service has been operating from since 2018, the Chautauqua Area Regional Transit Service (CARTS) will be able to control the Jamestown Hub location and make it the permanent home for many years to come. This location was originally selected because of its central location in the City of Jamestown, proximity to office locations that provide public services such as City Hall and other county social services, and availability of off-street bus parking. As part of this acquisition, the City of Jamestown will partner with CARTS to renovate the building and remediate the site as it was a gas station and will require some environmental cleanup including removal of old gas tanks, petroleum storage and any contaminated soil that might exist on site. CDBG funds will be utilized for this purpose.</p> <p>Redeveloping this site as a public transportation hub would reactivate a the vacated gas station as a centralized public space that would transform a property that was utilized in a manner that encourage its patrons to get gas and get of town. By repurposing the gas station as a CARTS hub, the City has the ability to flip the script and utilize the property to bring people into to town to shop, eat, and enjoy the many assets that Jamestown has to offer its residents and visitors. This site could be a vibrant bustling and unique place that provides a multitude of benefits to the community on a variety of levels.</p> <p>The redevelopment of the site will not only establish a permanent</p>
---------------------------	--

		<p>public transportation hub for CARTS, it will also offer an opportunity to establish a visitor welcome center that will provide a public restroom, tourist information and resources, and options for riders to grab a bite to eat or drink. The City will also partner with CARTS to develop a portion of the building as business incubator space for local entrepreneurs and early stage startups interested in opening a business such as a café, restaurant, or specialty retail shop, providing the physical space to jumpstart their businesses in a cost-effective way. This effort will be spearheaded by the City Department of Development with the goal of providing infrastructure that fosters and supports a culture of entrepreneurship within the local community by providing a space and the resources for small business owners to try and test their Annual Action Plan</p> <p>2022 46 OMB Control No: 2506-0117 (exp. 09/30/2021)</p> <p>businesses out while also providing services and offering products that benefit CARTS ridership as well as the surrounding community</p>
